

OUR GLOBAL ENFORCEMENT AND DEBT RECOVERY PRACTICE

Most corporations and claimants expend time and money in contractual arrangements and developing strong case theories, because they expect to secure payment at the end of the day. Our dedicated team of experienced lawyers acts in both large and complex debt collection matters to enforce creditor's rights. Our lawyers assist in obtaining these payments through debt recovery and enforcement mechanisms.

Our global enforcement and debt recovery practice team is highly experienced in the legal procedures to recover both payments due under contracts, and judgments or awards. The team has experience and resources to determine whether or not the debtor has assets, location of assets, whether they have been fraudulently conveyed or hidden or dealt with by the debtor contrary to rules and regulations of the country.

At times, the injunctions and other urgent remedies are to ensure that sufficient funds or assets, which might otherwise be dissipated, are available to satisfy an existing or future judgment of the court or an arbitration award. The team has assisted clients in obtaining urgent equitable remedies to freeze assets and obtain disclosure of documents and information concerning the debtor's assets, including post judgment Mareva injunctions to freeze the assets of the judgment debtor in the possession of a third party.
